

1.5mm SIAF-GL H05SJ-K Silicone Glassfibre Cable

High-temperature silicone insulated cable with fibreglass braid, available in multiple core colours including white, blue, brown and green/yellow. Designed for demanding environments such as catering equipment, heating systems and industrial machinery.

Key Features:

- Temperature resistance up to 180°C
- Flexible and easy to install
- Glass fibre braid for protection
- Available in multiple colours for identification
- Resistant to heat, ageing and abrasion

Property	Specification
Cable Type	H05SJ-K / SIAF-GL
Conductor Size	1.5mm ²
Voltage Rating	300/500V
Temperature Range	-60°C to +180°C
Outer Diameter	Approx. 3.3–3.6mm
Available Colours	White, Blue, Brown, Green/Yellow
